

# Minions everywhere!

Something in these little creatures touches british people in a way they can't deny.

So you can find them EVERYWHERE. You can have little TicTac-lookalikes, bedclothes, umbrellas and even condoms ...!

Mainly everything the heart could wish for.

I worked in a language school and of course our school mascots were minions. They had names like `Karl` , `Thomas` and `Peter` (it was a german language school) and they took part in every assembly.

Someday, there came a point I was fed up with them, but in the end it's fine as long as it makes people happy!
